ENTERTAINMENT ROI

GUEST SATISFACTION, OPERATIONAL RELIABILITY, AND MAXIMUM ROI

Their signature mantra, "Amoureux, heureux et contagieux" (In love, happy, and contagious), is more than a slogan—it is a professional guarantee of stability. As a real-life couple, they offer a level of on-stage chemistry and long-term contract reliability that solo-act pairings simply cannot match.

REAL LIFE COUPLE

ADVANTAGES

- **Electrotechnic and audio engineering**
- **Self-taught pianist since age 5**
- **Result: Technical self-sufficiency**

- **No backstage drama**
- **Tactile chemistry & Authentic on-stage joy**
- **Stability**

- **Theatrical and vocal pedagogy**
- **Rhythmic engine**
- **Result: Innate audience connection**

Their performance is defined by intense eye contact and physical proximity over an upright acoustic piano. This "Unplugged" capability means they can transform any space into an intimate, high-end venue.

THE EXPERIENCE

CHEMISTRY

As a real-life couple, we deliver an authentic on-stage chemistry and long-contract reliability that solo-act pairings cannot match. Our performance creates the warm feeling of an evening spent with close friends.

ADAPTABILITY

As a full, rich band sound engineered entirely in real-time with piano, two-part vocal harmonies, and organic percussion, we can also perform fully acoustic sets for more intimate settings where a real acoustic piano is available. We freely read the room and pivot energy on a dime.

SIGNATURE

Our signature is the emotional journey we create through expressive musical dynamics, featuring powerful crescendos and captivating, delicate decrescendos.

VERSATILITY

Our native French and English fluency serves as a distinctive premium asset for international sailings, European routes, and Canada/New England itineraries.
